

# Safety Management, PPE, and COVID-19

3/3/21 1:00 PM CST – 4:00 PM CST

This 3-hour webinar was developed to introduce employers and employees to safety management at the work place. Topics to be covered include:

- Introduction to OSHA General Industry Standards
- Common Types of Hazards in the Work Place
- Direct and Indirect Costs of Injuries
- Managing and Processing Safety and Health Issues at Work
- How to Create Safety / Emergency Action Plans
- Personal Protective Equipment
- Preparing for, Preventing, and Responding to COVID-19
- CARES Act Education and Compliance

The course will be taught by Alejandro Dominguez, owner of UPCS Inspectors LLC, who is a nationally recognized trainer, inspector, and affordable housing consultant. Alejandro has the OSHA 30-Hour General Industry license from the US Department of Labor.

### Who Should Attend?

This class is designed for housing professionals that value safety at the work place. Reasons to attend include:

- You want to create safety and emergency plans at your work place, but don't know how.
- You are interested in the use of personal protective equipment for your staff.
- You need a COVID-19 plan of action to protect staff, partners, and residents.
- You want to comply with CARES Act requirements.

*Above all, everyone is responsible for work place safety!*
